

Name _____

Date _____

Divide 2-digit by 1-digit no remainders

Steps:

Divide

Multiply

Subtract

Bring Down

Divide

Multiply

Subtract

Check It

$$\begin{array}{r} \square \square \\ 8 \overline{) 96} \\ - 8 \\ \hline 6 \\ - \\ \hline \\ \end{array}$$

Check It

$$\begin{array}{r} \square \square \text{ (quotient)} \\ \times 8 \text{ (divisor)} \\ \hline \square \square \text{ (dividend)} \end{array}$$

Steps:

Divide

Multiply

Subtract

Bring Down

Divide

Multiply

Subtract

Check It

$$\begin{array}{r} \square \square \\ 6 \overline{) 84} \\ - \\ \hline 4 \\ - \\ \hline \\ \end{array}$$

Check It

$$\begin{array}{r} \square \square \text{ (quotient)} \\ \times 6 \text{ (divisor)} \\ \hline \square \square \text{ (dividend)} \end{array}$$

Steps:

Divide

Multiply

Subtract

Bring Down

Divide

Multiply

Subtract

Check It

$$\begin{array}{r} \square \square \\ 5 \overline{) 95} \\ - \\ \hline 5 \\ - \\ \hline \\ \end{array}$$

Check It

$$\begin{array}{r} \square \square \text{ (quotient)} \\ \times 5 \text{ (divisor)} \\ \hline \square \square \text{ (dividend)} \end{array}$$
