

LETTERS:

a e c h p r t

WORDS TO MAKE:

Give children clues about how many letters to use and how many letters to change. "Now we're going to make some three-letter words. Hold up three fingers! Change just the last letter of the word *car* and you can make the new word *cat*." For words like *cheat/teach*, which can be made from the same letters, tell the children, "Don't take any letters out. Just change the letters around and you can change *cheat* into *teach*."
